Irma, Alberta, Friday, October 30th, 1930

\$2.00 per year in advance; 5c per copy.

## COMPANY SEEKS GAS FRANCHISE

Mr. Armstrong, representing an Edmonton syndicate, was in town last week, making arrangements to secure a franchise to supply Irma with natural gas. We understand that the negotiations have been quite successful. The plan is to drill a well as soon as possible and have the work on the gas mains and other preliminary work rushed.

There should be very little doubt as to securing an ample supply of natural gas for Irma. Gas has been struck near the town in the past, at Fabyan, Wainwright, Kinsella, Viking and it is only a matter of sinking a well deep enough to strike the heavy gas sands.

Irma should have the advantages that natural gas brings to a community in the way of cheap fuel, heat and light. Most of the towns along the line from Wainwright to Edmonton are now enjoying the benefits of having a supply of gas, and Irma and vicinity will look forward to the day when it will be utilized here.

## Wedding Bells

### MATTHEWS — MARRY

A wedding of unusual interest was solemnized on Saturday afternoon at Wainwright Manse, when Aubyn Marine, eldest daughter of Mr. O. R. Marby of Melville, Sask., and Mrs. Marby of this town, became the bride of Ward A. Matthews, son of Mr. and Mrs. George Matthews of this district. The bride was attended by Miss Melville Benjamin of Melville, Sask., while Richard Marby, brother of the bride, supported the groom. The bride wore a blue silk crepe dress with hat to match and the bridesmaid's dress was of reds green and felt hat in harmonizing tones.

The happy young couple will reside on the bridegroom's farm, west of town.

The best wishes of the entire district go with them in their future life.

### WOMEN'S INSTITUTE

The next meeting of the Institute will be at the home of Mrs. McFarlane at 2:30 p.m. prompt. Hostesses, Mrs. B. Long, and Miss Fluevelling. The convenor of the sewing committee requests all members to have the hazaar work finished and handed in at the next meeting.

All members and others who are interested in the Basketry Course, please have their minds made up as to what they intend to make as this is the last call for "Lunch Trays and Baskets." Dates for this course are November 27, 28, and 29th. Further particulars may be had at this meeting when we hope to have word from the Demonstrator regarding supply of reed. Please bring your quilt blocks.

### GERMANY REDUCING

**WHEAT CONSUMPTION**  
Ottawa, October 31st—According to a trade report received from Berlin the Federal Railway Company of Germany will serve no more wheat cereals on its dining cars. This is with the view of stemming the tide of wheat imports into the country.

It is expected that the wheatless menu will stimulate German wheat consumption in breads. At the present time Germany produces 128,500,000 bushels of wheat and consumes 202,000,000 bushels and at the same time procures 334,645,000 bushels of wheat and consumes only 255,905,000 bushels.

### VIKING

A. F. Neumeyer, of Edmonton, died last Saturday after a short illness. The funeral was held on Tuesday of this week. The late Mr. Neumeyer had been a visitor in town on several occasions at the home of Mr. and Mrs. H. P. Stock, Mrs. Neumeyer and Mrs. Stock being sisters.

H. P. Stock returned on Tuesday evening from Edmonton where he had been on account of the sudden death of his brother-in-law, A. F. Neumeyer.

The Camrose Inspectorate teachers convention will be held at the Provincial Normal school on November 6th and 7th.

## CHURCH NOTICES AND ACTIVITIES

**Sabbath Day Finds the Community**  
Joining in Observance, Prayer,  
and Church Attendance.

### UNITED CHURCH NOTES

The Services next Sunday will be at Albert, Alma Mater, and town. The topic "A Gracious Invitation." Everyone is cordially invited.

At the Presbytery meetings held at Ryley many important matters were discussed. One was the great difficulties encountered by the Overseas Missions in trying to finance on a curtailed budget. It was suggested that the ministers give this information to the congregations so that our people may be made aware of the great needs of the work abroad. It was also suggested that the churches, as far as possible, take up definite evangelistic work. One of the suggested methods was to arrange for an interchange of ministers to carry out evangelistic campaigns. It is likely that arrangements will be made for special services here and that the visiting ministers will be Revs. G. King and W. J. Huston. The new United Church hymn book was also available for inspection and it is truly a union hymn book. The praise of God will be most satisfactorily cared for by the use of this book. We hope that soon arrangements may be made for the use of this book in our services.

### THE ANGLICAN CHURCH

Service will be held at 3 p.m. on November 2nd in the Irma United Church.

The next W. A. meeting to be held at Mrs. T. Sanders on November 11th at 2:30 p.m.

The W. A. are putting on a Whist Drive in the Masonic Hall on Thursday evening, November 6th. Admission 50c. There will be a number of fancy articles for sale at this Whist Drive.

### ST THERESA CATHOLIC CHURCH

IRMA, ALBERTA.  
Service on the first Sunday of each month at 11 a.m.

### LUTHERAN CHURCH SERVICES

Service Bethania, November 2nd at 11 a.m. with communion.  
Threelighted at 2 p.m.  
Sharon, Coal Springs at 4 p.m.  
All are cordially invited.  
T. T. Boe, Pastor

### MASONIC BRETHREN

#### HELD DISTRICT MEETING

(From The Viking News)

The annual district meeting of the Masonic lodges of District No. 17 was held here last Friday afternoon and evening. The meeting was honored by a visit from the Grand Master and Grand Secretary. About 150 brethren were present from Lodges at Wainwright, Chauvin, Jarrow, Irma, Holden, Trifield, Edmonton and Viking. A banquet featured the final session in the evening. Wor. Bro. W. Fleming was elected district deputy grand master for next year. The meetings were presided over by R. Wor. Bro. Pryce-Jones, of Irma, president D.D.G.M.

### CALLED AWAY

In Memory of Our Neighbor, Mr. R. G. Martin.

With honor and distinction  
From our hearts we find to say,  
Our dear friend and neighbor  
The Lord hath called away.  
Life's battle now is ended,  
In peace his body sleeps;  
His spirit now is blended,  
With immortal kindred sweet.  
His birthday anniversary  
Lacked one day yet to come,  
But 'twas not meant for him to stay,  
On earth his time had run.  
His birthday now he celebrates  
With those gone on before,  
There inside the pearly gates,  
Happy evermore.  
To the bereaved ones left behind  
We hope no harm befalls;  
Go bravely marching onward,  
Until the Master calls.  
Our deepest heartfelt sympathy,  
Goes to your home from ours;  
May guardian angels smooth your way,  
With blessings sent in showers.  
— By Mrs. G. F. Albrecht

## WEEKLY REVIEW PROV. MARKETS

Markets as Revised by the Market  
Examiner, of Calgary,  
For This Paper.

**BEEF**—Choice heavy steers sold at \$5.25; choice light \$5.25; good \$4.75; medium \$4.50; and common \$3.50. Choice heifers made \$5.25; good \$4.75; choice cows went at \$4.25; good \$3.75; medium \$3.25; and \$3.50.

**FEEDERS, STOCKERS**—Practically all offerings in this market are turning over without difficulty. Feeder steers from \$4.00; stock steers \$3.50; stock heifers \$3.50; \$4.50; stock cows \$2.75; \$3.75.

**EDMONTON** reports values declined 40c during the past week. Facons quoted at \$10.10; select \$10.60, and butchers \$9.75, fed and watered basis.

**SHEEP**—No change noticeable at Edmonton since last report. Yearlings bringing \$4.50; ewes \$2.50; \$4.50 and lambs at \$6.87.

**POULTRY**—Chickens No. 1 over 5 lbs., 13c; No. 1, 4 to 5 lbs., 12c; No. 1, under 4 lbs., 10c; No. 2, 7c. Fowl: No. 1, over 5 lbs., 11c; No. 1, 4 to 5 lbs., 10c; No. 1, under 4 lbs., 8c, and No. 2, 5c; roosters 5c.

**EGGS**—Extras 28@30c; firsts, 26@28c; seconds, 21@23c.

**HAY**—A slight improvement has been noticeable in the undertone of this market during the week. Offerings somewhat light owing to harvesting operations having recommenced. Demand not expected to show any great amount of life until winter actually arrives. Prices steady at \$11.50 to \$12 for upland and \$16 per ton for timothy at country points.

**OATS**—Receipts continue light, while demand is not over-active. Prices steady at 25@30c per bushel, delivered.

**GREENFEED**—Offerings in this feed show slight improvement, but trading not over-active. Expect that demand as season progresses. Price steady at \$10@11 per ton delivered. No carload movement.

MUNICIPAL DISTRICT OF  
BATTLE RIVER No. 423

Notice is hereby given that, under the provisions of The Tax Recovery Act, 1929, the Municipal District of Battle River No. 423 will offer for sale, by public auction, at the Municipal office at Irma, Alberta, on Thursday the 13th day of November, 1930, at 2 p.m., the following lands:

Section	Twp.	Range	Mer.
Frac. of N. E. 36	4	7	4
S. W. 4	45	7	4
S. Half of N. W. 4	45	7	4
N. W. 30	46	9	4
N. E. 34	46	9	4
S. E. 25	46	7	4
N. W. 25	46	7	4

The above lands will be offered for sale subject to a reserve bid, and reservations contained in the existing certificates of title. Terms: Cash unless otherwise arranged. Redemption may be affected by the payment of the arrears of taxes and costs at any time prior to sale.

Dated at Irma, Alberta, this 4th day of September, 1930.

R. J. TATE, Sec.-Treas.

Don't forget the Ladies Aid Bazaar to be held in the Church next Saturday, November 1st.

## HOADLEY SUGGESTS DRYING OF WHEAT

Agriculture Minister Outlines Plan to Save Farmers' Grain.

Free drying of wheat at the terminal elevators has been suggested in a wire just sent to Hon. Robert Weir, federal minister of agriculture, by Hon. George Hoadley, the Alberta minister. In view of present conditions in Alberta, Mr. Hoadley asks that the dominion government consider undertaking this work on a no-charge basis, so that thrashing may resume at once.

Hospital facilities for the treatment of damp grain are available at all the terminal elevators, but it is expected that the bulk of the work would be done at Vancouver and Fort William. Mr. Hoadley says in explanation of his suggestion, that if the dominion authorities would undertake the drying free, representing a saving of at least five cents a bushel to the farmers, the movement of grain would begin at once, but otherwise it will be necessary to wait until such time as natural drying has taken place.

If the idea is acted upon, it will have to be understood, says Mr. Hoadley, that the farmer must bear the loss in shrinkage, caused by the drying of the wheat and consequent loss in weight. Railway rates will also have to be adjusted.

## Household Hints

**Salad Dressing**—Bring half pint milk to boiling point. Mix together of one egg, one teaspoon mustard, one teaspoon castor sugar, pinch salt and pinch pepper, half cup melted butter. Pour over these ingredients boiling milk. Then return to double boiler and cook until it thickens. Have ready one gill good vinegar and add when you take pan off fire. Leave till cold and then bottle for use. This will keep for months.

**Nut Loaf**—Four cups flour, two cups baking powder, one teaspoon salt, one cup sugar, two cups sweet milk, two eggs, one cup nuts.

**Date Loaf**—One cup butter and three-quarters cup sugar, creamed, two eggs, half cup milk in which has been dissolved half teaspoon soda, one pound dates cut small, cup walnuts cut in fairly large pieces, two cups flour. Bake one hour in moderate oven.

## PRINTER'S INK SKILL— FULLY USED BREAKS DOWN OUR PREJUDICE

Value of Advertising is Proven by  
Many Busy Industries  
Today

The question "Does Advertising pay?" is seldom heard nowadays, because the average merchant realizes full well the value of skilful advertising. In many instances the advertiser becomes an evangel of conciliation who breaks down our deep-seated but unreasonable prejudices. Witness his work in popularizing the automobile and in hastening the day when the horseless carriage will be the universal vehicle of conveyance. When the automobile first made its appearance upon our streets and highways its progress was impeded by the jibes and jeers of those who could not believe that a locomotive running wildly in the streets would ever be permitted to supplant the ordinary forms of conveyance. The popular prejudice against it seemed well-nigh insurmountable. Printer's ink, skilfully and persistently used, has broken down this prejudice, and now thousands of smoking chimneys mark the industrial monuments to the genius of the modern advertiser. Popular prejudice has been removed and the human mind is gradually acquiring the notion that the automobile is no longer a luxury, but a necessity.

The Saturday evening dances are again being run every Saturday evening from 9 to 12 in Kiefer's Hall, Irma. Admission: Gents 55c, Ladies free.

## CAN'T CONTRADICT THIS FORECAST

Washington, October 31st.—A note age when there will be no water on a hot side of the earth continually facing the sun while the earth's revolutions around the sun goes on unceasingly has been predicted by Dr. W. J. Spillman.

"The time will come," he said, "perhaps some billions of years from now, when the earth will make one revolution on its axis while it is revolving around the sun with the same side toward the sun all the time. At the center of that sun-swept side, where the sun will stand directly overhead all the time, it will be boiling hot, and on the other side of the earth the temperature will be around 50 degrees below zero and the conditions will stay that way for all time."

"When that occurs the oceans will all be collected on the cold side of the earth, turned into ice, and there will be no water on the hot side of the earth. However, the day as we know it, long before ten minutes in 20,000 years so the present generation and its descendants for some hundreds of thousands of generations need not worry."

## MELGROVE VALLEY GUIDES

As October 18th completed the first year the Company has been under the present Captain, the meeting took on more the form of a birthday party. The girls spent a jolly time playing games, etc.

Twelve guides have made the required percentage of attendances to obtain Service Stars.

At the close of the meeting lunch was served, a birthday cake, alight with one candle having the place of honor on the table.

Several promotions were made and the Guides are in readiness for a good year's work.

## ASK YOUR GROCER FOR ONE OF THESE BLENDS—THEY ARE BY FAR THE FINEST YOU CAN BUY AT THESE PRICES

### What Does Your Work Mean To You?

In the current issue of a well known magazine there is an article, bearing the title "Do You Ever Get Off On The Wrong Foot?" which discusses the problems of people who at some stage in their career come to the conclusion that they are square pegs in round holes. In a word, that they do not fit; that they have made a mistake in the choice of their business occupation, or professional calling, and, as a result, are not making the progress they feel they should make and their abilities entitle them to make.

On the other hand, a daily newspaper is at present running a series of short sketches of men who in their boyhood or early manhood had ambitions along certain lines, but circumstances, environment, fate, call it what you will, decided otherwise, and instead of being what in those other days they "wanted to be" they have achieved success in radically different walks of life.

In this present period of world-wide depression, a temporary period when we are for the first time feeling and suffering the real aftermath of the Great War, doubtless many people are asking themselves the question: Have I got off on the wrong foot? Am I a square peg in a round hole? Should I make a change, abandon the business, trade of profession in which I am or have been engaged and try something new and different?

Possibly at this time many people will be inclined to indulge in such questioning as they contemplate the many vicissitudes which agriculture has undergone during the past two years as a result of climatic conditions, marketing difficulties, and a selling price for their products below the actual cost of production. The present outlook may not look promising to them, any more than it does to the city wage-earner. The question, however, which both classes must consider is whether, after all, any change would be better.

For example, if the man engaged in agriculture really likes farming and a rural life, and that degree of independence resulting from the fact that he is his own boss, preferring these to the limitations of a salaried position in town or city, the paid servant of others, and breathing the air of congested centres of population, then he has not made a mistake; he is not a "square peg." Nor is the city man in the wrong place on his part of the open life and activities of the farm and the less strenuous life of rural communities makes no appeal to him.

Possibly in both city and country, and with men in all occupations and callings in life, some part at least of their dissatisfaction with their own condition is to be found in their failure to fully grasp all the opportunities of their present vocation.

In the magazine article to which reference has already been made, the story is told of a man in middle life who, dissatisfied with his position and the progress he was making, came to the parting of the ways. An orphan, forced to make his way at the age of thirteen, he took a humble position in a food commission warehouse. In course of time he became a salesman, acquired a family and a house worth four thousand dollars, and at forty-two was working long hours every day for forty dollars a week. An opportunity presented itself to become produce manager in a newly organized business at fifty dollars a week, but he was required to invest two thousand in the business. He mortgaged his house to raise the money, and took on the new job. But the promoter of the business was inexperienced, and in ten months it failed, with the result that this man lost his money and ruined his health by worry. He then took stock of "himself." He realized he knew a little about a whole lot of vegetables, but did not know everything there was to know about any one of them. So, on the advice of a friend, this man went back to his old job and worked two years more during which time he made close and expert study of one particular vegetable for which there was an all-year-round demand. He learned where the best varieties were grown, and by whom; refrigerating methods; packing methods; costs; who bought that particular variety of vegetable; ways to use it; everything. Then he launched into business in a rented dark basement dealing exclusively in that one particular vegetable. Today he heads a huge and profitable business and is worth hundreds of thousands of dollars.

The point is just this: the dissatisfied agriculturist farming in any old way in haphazard fashion, sowing any kind of seed, good and clean or not; using any kind of scrub cattle, indifferent breeds of poultry, or other farm stock? Is the dissatisfied city artisan, or clerk, or business man, just drifting along, doing what comes to his hand, without giving much heed to the method of doing it? Is the carpenter, for instance, content to be merely a "saw and hammer" man, instead of studying and striving to become efficient and an expert in his work? Is the merchant, plodding along lines of least resistance but making no special effort to study the requirements of his particular field and the needs, even the fads, of his customers?

In a word, are we treating our present occupations, in life, merely and solely as a means of physical existence in life, or are we finding some real pleasure and satisfaction in the work itself? If the former is our approach to our work we will, of course, be dissatisfied with it and with ourselves, and ultimate failure must result. If, on the other hand, the work itself means something to us, and we take a keen interest in it, study it and its possibilities, constantly strive for its improvement, then satisfaction will result, leading to contentment and a reasonable measure of ultimate success.

While there are exceptions to the general rule, that general rule is that it is not so much the nature of the work in which we are engaged that counts, as our attitude towards that work which makes for dissatisfaction and failure on the one hand or satisfaction and ultimate success on the other hand.

### The Aeroplane and Geodesy

#### Problem Of Survey Work In Remote Districts Has Been Solved

The aeroplane has solved one of the problems of the Geodetic Survey of Canada. In those districts which are traversed by neither roads nor railways, travel is slow and at times almost impossible. Obstruction is met everywhere in measuring the points in the great triangulation net which is gradually covering the whole of the Dominion. By means of the aeroplane, most of these difficulties have been set aside.

### UTTERLY WORN OUT

#### Women Weakened By Worry

"I don't want to worry, but I can't help it," said a woman recently when told to take things easy and not worry. It is the duty of every woman to save her strength. If she finds herself getting depressed, if she feels utterly worn out; worries over trifles and frequently has nervous headaches, she will be wise to realize her nervous system needs attention.

Starved nerves mean a breakdown. To feed the nerves you must build up the blood. To do this there is nothing to equal Dr. Williams' Pink Pills. These Pills not only enrich the blood, but actually create new blood which feeds and strengthens the nerves and banishes the cause of nervous disorders.

Women cannot always rest when they should, but every woman can maintain her strength by the help of Dr. Williams' Pink Pills. Start taking these Pills now and see how soon improvement will show by increased energy, keen appetite, strong steady nerves and robust health. These Pills are sold by medicine dealers or by mail, postpaid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Progressive Estevan

#### Three New Industrial Plants Operated At Recent Ceremony

The town of Estevan on September 24th opened three new industrial plants at a ceremony attended by some 300 leading business and professional men of Western Canada; and "The Mercury," in a special issue, notes the recent progress of this town of 3,000 persons, the extent of whose agricultural and mineral wealth is only beginning to be realized. Among other things, it boasts of having the only plant in Canada making "stone-grey" building brick and of having the largest nurseries in the Dominion.

The man who makes a better job out of the job he has instead of always looking for a better job is the man who succeeds.

### Winter Holiday Trips

#### Canadian Pacific Offers Special Inducements To The Winter Traveller

Ship stimulus to winter travel in Western Canada this year is forecast by Canadian Pacific Railway officials in Winnipeg, chief among the contributing factors being the many special trains arranged to connect with special sailings to the Old Country for Christmas and New Year. While this rail movement will be eagerly there are also many interesting winter features in the west that annually bring thousands of easterners, Canadians and Americans, to the winter playground of the northwest.

The Banff Carnival is now known all over the civilized world, and another western winter sporting event that has become firmly fixed on the calendar is the mid-winter golf tournament, sponsored by the Canadian Pacific Hotels. At Victoria, capital City of British Columbia.

This tournament, started in 1928, enters its third year next February, when, from February 25 to 28, a host of golfers will gather in the Pacific Northwest in quest of the Beatty challenge trophy. The tournament is being held this season at the Oak Bay course of the Victoria Golf Club, where all-winter golf is one of the feature attractions of Vancouver Island's evergreen playground.

As a special inducement to winter travellers, low round trip fares have been named by the Company to Eastern Canada and Central States, commencing December 31st, and to the Pacific Coast during December, January and part of February. These tickets are considerably lower in price than the ordinary fare and bear a much longer limit.

**Conquers Asthma.** To be relieved from the terrible suffocating due to asthma is a great thing, but to be safe-guarded for the future is even greater. That is why Dr. J. D. Kellogg's Asthma Remedy brings prompt relief, but it introduces a new era of life for the afflicted. Systemic inhalation of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

### Canadian Trade Office For Egypt

#### Dominion Has 31 Trade Commissioners In Different Parts Of The World

A new Canadian Government Trade Commissioner's office is to be opened at Cairo, Egypt. The territory for this new office, which will open sometime next December, includes Egypt, the Sudan, Palestine, Cyprus, Syria, Iraq, and Mesopotamia. When the Canadian Trade Commissioner takes over at Cairo, Canada will have 31 trade commissioners in different parts of the world and a commercial agent at Sydney, Australia. These commissioners function under the Commercial Intelligence Service of the Canadian Government Department of Trade and Commerce, which is designed to further the interests of Canadian trade in all parts of the world. The trade commissioners make periodical reports upon trade and financial conditions in their respective territories and keep Canadian manufacturers and others advised concerning opportunities for the sale of Canadian products. Canada's foreign trade in 1929 was \$256 per capita, the highest in the world.

### Trying All Ways

Mr. Newlywed: Is the steak ready now, dear?  
Mrs. Newlywed: I'm sorry I'm so long, George, but it looked hopeless; grilled, and it doesn't look much better fried, but if you'll be patient a little longer, I'll see what boiling does to it.

**Persian Balm** is inevitably chosen by discerning women. Delightful to use. Subtly fragrant. Cooling and refreshing. Imparts a rare youthful charm to the complexion. Invaluable for softening and making hands lovely white. Tones and stimulates the skin. Useful for the family also. Protects the tender skin of the child and is excellent for the father as a hair fixative and cooling shaving lotion.

**U.S.A. Manufacturers For Manitoba**  
A special publicity campaign, aiming at the establishment of American manufacturing plants in the Province of Manitoba, is to be launched by the Industrial Development Board of the province.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Extirminator.

**Population Of Moose Jaw**  
According to the new Henderson Directory, the population of the City of Moose Jaw is shown as 26,140, or an increase of 3,497 over 1920.

**Brain Workers Live Long.** Thomas Edison is 83, Sir Oliver Lodge is 79, Bernard Shaw is 74, and other scientists and brain workers are well past the 60-year mark.

Banish pain with Minard's Liniment.

### People Need Products

#### Russia Is Selling

#### Soviets Take That Method To Raise Money For Treasury

Soviet dumping of wheat and other products abroad at a time when the supplies are urgently needed in Russia itself is in the nature of "tax" collection under the Russian system, says the Financial Post, which continues:

"In Soviet Russia, the word taxation has no such meaning as Western minds attach to it. Holding private ownership to be unethical, the government itself is officially the owner of all property. Consequently, there is none for it to tax. Proclaiming private profits to be opposed to human welfare, it officially permits the accumulation of no incomes which might be taxed. It is obliged, therefore, to obtain its revenue from the actual products of the mines, forests, and farms which it operates or to take as taxes the produce of those who still operate privately—mainly the unorganized peasants. But since it cannot operate a treasury directly with wheat and lumber, it must sell these articles in the outside world.

"This is what it is doing to the extent even of leaving its own people on the verge of starvation. Officially they are permitted to eat only what is distributed to them by the government, and the heavy purchases of machinery abroad mean that the people at home must be kept to the very lowest limit of supplies."

### For Dry Skin—Minard's Liniment.

#### Turner Valley Oil

#### Seven Thousand Acres Definitely Proved As Large Producer Of Gas And Oil

Following a tour of the Turner Valley oil field, A. Beeby Thompson, a member of the British Council of Petroleum Technologists, declared that 7,000 acres of that terrain had been definitely proved as a large producer of gas and oil. Production, since the beginning of drilling operations, amounted to 3,000,000 barrels of a value of \$100,000, the present rate of production being about 3,500 barrels per day from about 60 wells.

### Her Two Children Had Summer Complaint

Mrs. J. J. MacDonald, Glace Bay, N.S., writes: "I am the mother of six children, and would not, without a bottle of Dr. Fowler's Extract of Wild Strawberry in the house. My two youngest were very sick with summer complaint, and there was nothing I tried could equal that remedy, and I had tried most everything, but they could get no relief. 'Dr. Fowler's' made a change in both of them in less than two hours."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

### GENUINE INDIAN COATS

which are at once useful and ornamental. Strongly made of best buckskin, dry tanned and smoked, with wadded seams and fringed shoulders and sleeves. Every coat is guaranteed to give years of satisfactory wear, and this, coupled with the attractive appearance, will have a strong appeal to hunters, trappers and others who require the utmost in wearing quality. Made by the Chipewyan and Cree Indians here in the foothills, we have a limited number for disposal at the reasonable price of \$18.00 and \$20.00.

## Administration Of Lands And Other Resources Of The West Passes Under Provincial Control

The present year terminates the administration by the Dominion Government of the lands and other resources of the three Prairie Provinces, and of the areas in British Columbia known as the Peace River Block and the Railway Belt. These resources now pass under provincial control.

One of the notable changes involy-

ed is that the historic Dominion home stead policy now gives way to the most scholarly of New York reviewers, contributes an article to the New York Times Book Review on the Cambridge history volumes. He gathers from "this admirable historical study," that the Canadian view of American affairs "has a certain definite atmosphere, which may, perhaps, be described as modest superiority. Not that there is any boasting. The points of superiority simply emerge in passing. For example, we set some store by the year 1492, undulating its significance by an annual holiday, the Canadian date is 1472, when John Scipio the Dane, reached Canadian territory in the region of Labrador. We commemorate the founding of Jamestown in 1607, and of the Pilgrim State in 1620. But the year 1534 marks "the birth of Canada." Again we celebrate July 4, but here also, Canada outstrips us, for July 3 is the birthday of Quebec, in the year 1608. Finally the fact slips out that the area of Canada is greater not only than that of the United States including its dependency Alaska—incidentally it may be added also greater than Brazil, the third largest country in the Western Hemisphere.

### A New Yorker On Canada

Points Out Several Points Of Superiority Over U.S.

Charles Johnston, who is one of the most scholarly of New York reviewers, contributes an article to the New York Times Book Review on the Cambridge history volumes. He gathers from "this admirable historical study," that the Canadian view of American affairs "has a certain definite atmosphere, which may, perhaps, be described as modest superiority. Not that there is any boasting. The points of superiority simply emerge in passing. For example, we set some store by the year 1492, undulating its significance by an annual holiday, the Canadian date is 1472, when John Scipio the Dane, reached Canadian territory in the region of Labrador. We commemorate the founding of Jamestown in 1607, and of the Pilgrim State in 1620. But the year 1534 marks "the birth of Canada." Again we celebrate July 4, but here also, Canada outstrips us, for July 3 is the birthday of Quebec, in the year 1608. Finally the fact slips out that the area of Canada is greater not only than that of the United States including its dependency Alaska—incidentally it may be added also greater than Brazil, the third largest country in the Western Hemisphere.

### Canadian "Pingos"

Small, Fresh Water Lakes Found Along Coast Of Arctic Ocean

Pingos are conical sand or gravel hills which rise sometimes as high as 100 feet above the swampy ground skirting the shore of the Arctic Ocean, particularly that part of the coast eastward from the Mackenzie River to Cape Bathurst in the North-West territories of Canada. The summits are hollowed out like a crater, and always contain a small lake of fresh water. As all the lakes in the vicinity are more or less briny, the natives have been known to walk long distances to get their drinking water from the pingos. The origin of these hills remains an unsolved puzzle.

A recent wild-life census indicates that more than a million game animals live in the national forests of this country.

Absent-Minded Professor Of Tomorrow  
"There now, Adolar, you have forgotten your parachute again!"  
Hummel, Hamburg.

W. N. U. 1861

these were never completed the magnitude of this land business may be judged from the fact that the entries represent, at 160 acres each, nearly 100,000,000 acres of land.

As the accompanying diagram shows, homestead activity reached its peak in the three or four years immediately preceding the War. While the last two years have brought a decided upturn in the number of entries,

the post-war period, generally speaking, has witnessed only a moderate degree of homesteading activity. The rise and fall of homestead entries illustrates perhaps better than anything else the fact that in more recent times the granting of homesteads has not been the all-absorbing task for the Department of the Interior that it was fifteen or twenty years ago.

Another thing is that in spite of prices so high that they discourage consumers, Canada last year sold more than the year's entire crop. Marketing prospects have improved in the importing countries of Europe and also in Japan and China. Now it is Russia likely soon to be an important competitor in Liverpool or anywhere else, as some people have seemed to fear. This year's Canadian crop is considerably larger than last year's and it is of a particularly high quality. This means that other things being equal and prices being as low as they are, Canadian wheat should take the lead on all buying markets from this time forward. All things considered, therefore, there seems to be every reason for hoping that a few months hence Canada may be back on the world's main street, exporting more wheat and wheat flour than any other nation on earth.—Toronto Mail and Empire.

### Disturbing Nature's Balance

Disastrous Results Often Follow the Introduction Of Foreign Climates

A scientist of the Academy of Natural Sciences of Philadelphia brings from the West Indies an account of another of the many recorded instances of the unfortunate results of man's interference with the "balance of nature." Monkeys, the offspring of animals supposed to have been liberated by sailors or slave traders many years ago, and the mongoose, brought from India to cope with an excess of rats and snakes, are both said to have proved to such an extent upon the birds and their nests that certain species of the birds have been virtually exterminated or driven to other localities.

One of the best known instances of the disastrous results of the artificial upset of the balance of nature is found in the rabbit pest in Australia and New Zealand. These animals, introduced originally for food or for sport, have increased to such an extent that great sums have been spent in a vain effort to eradicate them. Such occurrences justify the skepticism that is always voiced when insects or animals are brought from distant climes to cope with pests. There is always the peril of creating a new and more serious pest.—New York Evening Post.

### New Machinery Needed

Development Of Flax and Hemp Making Machinery Offers Opportunity

In handling crops such as flax and hemp when so much labour is involved, the need of new machinery that will lower the cost of production cannot be overemphasized, observes the Fibre Specialist of the Dominion Department of Agriculture, in his annual report. Special attention is now being given to the processing of flax and hemp at the present time, and it is expected that some way of speeding up production in scutching and retting will soon be found. The development of flax and hemp working machinery provides one of the greatest opportunities to Canadian enterprise at the present time.

### Good Business

Seeing a sign in a window reading "Ice Creme," young Goofus went in and told the man behind the soda fountain of the misspelling. "Has anyone told you of it before?" Goofus asked.

"Hundreds," replied the clerk. "But whenever they drop in to tell me, they always send something. What'll you have today?"

### Conscience Wakes Up

It is not only evaders of income tax who sometimes become conscientious and make restitution after the lapse of a long period of time. At a recent meeting of the Vancouver public library board, the librarian reported that 34 books which had been stolen from the library in 1924, had recently been returned.

The oyster may be dumb in some ways, but it has sense enough to get a four months' vacation.

### Reassurance For Wheat Growers Of Canada

No Cause For Pessimism Says Well Informed Bank Official

There is reassurance for Canadian wheat growers and, therefore, for the whole of Canada in the review of the world market conditions given to the Toronto Mail and Empire by Mr. E. F. Alley, assistant general manager of the Canadian Bank of Commerce. As Mr. Alley has charge of the bank's business throughout western Canada, and as he must, therefore, be specially well-informed regarding the wheat export trade, his remarks upon the existing situation may be accepted as authoritative. Without presuming to speak dogmatically, he points out several influential factors in the marketing developments of recent months. One of these factors is that the high prices which prevailed for wheat not so long ago induced an over-production of that commodity throughout the world. It brought into the field countries where the cost of production is high, and which cannot profitably produce wheat for sale on normal quotations.

Another thing is that in spite of prices so high that they discourage consumers, Canada last year sold more than the year's entire crop. Marketing prospects have improved in the importing countries of Europe and also in Japan and China. Now it is Russia likely soon to be an important competitor in Liverpool or anywhere else, as some people have seemed to fear. This year's Canadian crop is considerably larger than last year's and it is of a particularly high quality. This means that other things being equal and prices being as low as they are, Canadian wheat should take the lead on all buying markets from this time forward. All things considered, therefore, there seems to be every reason for hoping that a few months hence Canada may be back on the world's main street, exporting more wheat and wheat flour than any other nation on earth.—Toronto Mail and Empire.

### Horse Standard Improving

Better Class Of Hunters and Jumpers Being Bred

Both in number and in quality the situation in Canada as regards hunting or jumping horses is improving. It was stated by Lieut.-Col. Frank Moss, Toronto, secretary of the Canadian Hunter, Saddle and Light Horse, Improvement Society, who spoke on the work of his organization to delegates of the Canadian Cavalry Association in annual convention at Ottawa.

Colonel Moss said the society, with the aid of government grants, was generally making progress in its aim to interest the farming communities in the breeding of hunters. Practically 50 per cent. of all hunters bred on farms were suited for cavalry work, he said.

### New Style Railway Coach

A railway coach, shaped like a Zeppelin, with a 500-horsepower aeroplane motor and driven by a propeller, was tested on a five-mile stretch of rails near Hanover, Germany. Carrying 25 passengers, it attained a speed of 95 miles an hour within a couple of minutes after starting. Machines of this type may be used on regular rail lines for fast passenger transit.

"How long has Meeker been married?"  
"For twenty avel years."

### ARCHITECTURAL SCULPTOR

John Donnelly, New York, and his wife, as they arrived in Montreal on board the "Lady Rodney," from the West Indies. Mr. Donnelly is an architectural sculptor with a prominent New York firm, and will shortly arrive in Toronto, Ont., to apply his art on the exterior of the New Bank of Commerce building.—Photograph by C.N.R.

### Siam Will Exhibit Rice

Best Varieties Will Be Sent To World's Grain Exhibition

Announcement has been made from the office of the World's Grain Exhibition and Conference of the acceptance by the Kingdom of Siam of the invitation to participate in the world's grain show to be held at Regina in 1932.

According to advice received from R. G. Butler, assistant Canadian Government Trade Commissioner at Batavia, Java, the Ministry of Lands and Agriculture of Siam has decided to send an exhibit to Regina at the time of the 1932 world-wide event.

The exhibit will take the form of a display of varieties of Siam best rice and glutinous rice. In addition it is highly probable that an officer of the agricultural ministry will visit Regina in charge of the exhibit. The question is now under consideration by the ministry, according to Mr. Butler's communication.

With the acceptance by Siam of the invitation to take part in the world's grain show in 1932, the total number of countries already accepting the invitation of the organization reaches ten.

Rice, which will form the exhibit of the Siam Kingdom, at the world's grain exhibition and conference in 1932, forms the chief product of the country, being the national food and staple article of export. Over \$75,000,000 worth of rice was exported from Siam last year to different parts of the world. Some 30,000,000 acres of land being devoted to rice cultivation.

### Number Of Farms Reduced

United States Census Bureau Records Decrease Of 2.3 Per Cent. Since 1920

A reduction of five years of 73,763, or 1.2 per cent, in the number of farms in the United States was reported by the census bureau on the basis of complete returns from the 48 states and the District of Columbia.

The farms, which under the census bureau definition means a tract of land used for agricultural purposes composed of more than three acres or producing crops valued at \$250 or more, totalled 6,297,877 as compared with 6,371,640 in 1925, when the last census of farms was taken.

This was a decrease of 2.3 per cent, in the number of farms since 1920, when the total was 6,448,343.

### Highway Expenditures

Saskatchewan's Appropriation Of Ten Millions For The Year 1930 Now Nearly Exhausted

Saskatchewan's 1930 highway appropriation of \$10,000,000 virtually has been expended as the programme submitted and piloted through the legislature by Hon. A. C. Stewart, Minister of Highways, nears completion. Of the \$10,000,000 voted by the House at the last session, \$9,277,963 has been expended to date and the remainder will be exhausted on work to be done this fall, according to a statement issued by Mr. Stewart. In the amount expended \$500,000 for new bridges, \$150,000 for ferries, and \$570,000 in connection with relief road camps.

Blood makes the round of the human body about once every half minute.

Portugal and Austria have just been connected by telephone.

## Canada Is Anxious For Penny Post Re-Establishment Throughout The Empire

### Virtue In Soap

Found That a Liberal Use Teaches Boys Self-Respect In England

It is to the splendid advertisement of a firm of (by a strange coincidence), soap manufacturers that we owe the sudden general awakening to the worldwide significance of soap. These advertisements brought to our notice a fact of the utmost value, hitherto overlooked. The fact was this: Soap teaches boys self-respect.

Even though it ostensibly referred only to one kind of soap, I find it impossible to exaggerate the immediate and salutary effect this announcement had upon the national attitude. Grubby boys throughout the country were sternly commanded to wash, boys who had already washed were sent to wash again. A wave of self-respect began to sweep over the youth of England. Legions of astounded but appreciative scoutmasters sat down and recorded in letters to the manufacturers concerned, their gratified amazement at the way in which not only self-respect, but integrity, sterling worth, piety, benevolence, sportsmanship, kindness to animals and extraordinary mathematical ability began to show themselves in lads as soon as they began to wash with soap.—From G. K.'s Weekly.

(By Eva A. Tingey).

### BECOMING FOR MATRONS

All Tingey models are created and sketched in Paris and the patterns are made in New York. Some of the prevailing fashions most favored lines are very adaptable and happy ones for matrons. There is a fluid slenderness about them and quite a number of points usually length giving and slimming. Today's model has its points and they're slender, graceful ones! One of them is a modish pointed and jabot effect which the average full figure will find becoming.

You can carry the model out in crepe-de-chine, marocain or triple georgette, very supple chiffon velvet, pliable moire, georgette brocade with velvet weaves or satin. The silks can be plain or patterned according to one's fancy. If a woolen dress is desired, then wool georgette which has a mat surface will be found satisfactory and flattering to the heavier figure.

This pattern may be obtained in sizes 14 to 20 and 34 to 40. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

### How To Order Patterns

Address: Winnipeg Newspaper Union, 170 McDermott Ave., Winnipeg  
Pattern No. .... Size .....

Name .....  
Town .....

Canada is making a bid for the re-establishment of penny-post throughout the Empire. Representatives have been appointed to the communications committee of the Imperial Conference, on behalf of Canada, it is understood, urging:

- (1) Re-establishment throughout the Empire of the penny post.
- (2) Establishment throughout the Empire of a uniform rate for air mail.
- (3) Reduced rate on parcel post throughout the Empire.

Canada already grants penny post on letters sent from Canada to all parts of the Empire, but the other Empire units have so far failed to reciprocate. While the British letter rate from Canada to Great Britain is two cents, the rate from Britain to Canada remains at three cents.

When Canada returned to the penny post some years ago there were strong representations from British commercial interests that the British post office should follow suit. The reply was then made that in view of the financial situation of the post office, it would not be in a position to meet the estimated loss in revenue.

In regard to uniform air mail rates in the Empire and reduced parcel post rates, the Canadian representatives are understood to have expressed a willingness to co-operate with Britain and the other dominions in every way possible to stimulate the use of air mail. There, it is felt, lies a great field which Canada is rapidly developing for the faster transit of mails. It is further urged that reduction of parcel post rates within the Empire would do much to stimulate Empire buying.

### Rust Control

Fifth Of Series Of Studies In Plant Diseases

One of the most useful publications which has been published by the Federal Department of Agriculture recently is the fifth in the series of studies in plant diseases being carried out under the direction of the Dominion Botanist. This study deals with "Control methods for diseases of cereal, forage and fibre crops." It contains the latest findings of the Dominion Research Laboratories of plant pathology at Winnipeg, Saskatoon and Edmonton. The subjects dealt with include not only general rules useful in the control and eradication of cereal diseases, but specific recommendations for the treatment of a wide variety of specific cereal diseases. The crops dealt with include wheat, oats, barley, rye, corn, millet, flax, sunflowers, alfalfa, sweet clover and common clover. This circular, No. 123 New Series, is available without charge on application to the Publications Branch of the Department at Ottawa.

### Agricultural Saskatchewan

30,000,000 Acres Of Land Under Cultivation In The Province

Recent reports show that the Province of Saskatchewan has grown from 60,000 farms in operation with 2,000,000 acres in crop when the province was organized in 1905 to 118,000 farms with 30,000,000 acres under cultivation at the present time. Also, the province is now organized along agricultural lines, the wheat pool having 80,000 members while various other farmers' organizations are operating to the benefit of the producers.

### A Labor-Saving Device

Life is getting easier and easier. The latest invention to take some of the work of a man's hands is a cigarette which doesn't need the use of a match or cigarette lighter. It is tipped with a special preparation which when rubbed gently along the side of the package lights it on.

Gasoline is being sold in Bogota, Colombia, at 47 cents a gallon.

"They say she throws her money into the gutter."  
"I suppose you don't know which gutter?"—Pages Gates, Yverdon

## GET THE HABIT

Get the habit, when you make purchases of merchandise, of asking where it is made?

At the eleventh annual Convention of the Canadian Weekly Newspaper Association in Halifax on September 8, 9, 10 last, the following resolution was passed, unanimously:

"In view of the importance of the industrial and agricultural situation throughout Canada, and the urgency of public thought tending toward greater economic co-operation, the C.W.N.A. suggests that its membership assist in any effort to create a demand for the consumption of Canadian production."

The Irma Times is only too glad to give aid and to be of service in such a movement.

We believe that the citizens of Irma and district are in sympathy with the underlying sentiment expressed on the foregoing resolution, and it is suggested to the buying public of the community that in order to assist in the improvement of the present business conditions Canadian and British goods be given the preference in all purchases.

Develop the habit of asking "Where is it made?" when purchasing goods, and give our preference in this order: (1) To Irma; (2) to Alberta; (3) to Canada; (4) to the British Empire. Create prosperity by purchasing Canadian made products and purchasing them in our own town stores.

## WELL KNOWN PASTOR PASSES IN EDMONTON

Genuine sorrow was expressed last Wednesday all over the province upon hearing the news of the death of Rev. Dr. McQueen, pastor of the First Presbyterian church in Edmonton. He was 76 years of age and had been ill for two months.

A resident of Edmonton for 43 years, Dr. McQueen was widely known not only in his home community, but all over Canada. He saw Edmonton grow from a small hamlet to a large city during his lifetime. He was a guiding spirit in many of the movements that have been of benefit to the city, both in and out of church circles.

## GRAVEL IS BEING LAID ON CAMROSE—DAYSLAND HIGHWAY

Gravelling operations on the Camrose-Daysland highway began on Monday afternoon of this week, and work is progressing rapidly. Six trucks are at work at the present time and about two miles of gravel have already been laid. McDonald & Foster have the contract and Charles Knight is foreman in charge of the unloading at the Canadian National freight yards. If weather conditions hold as at present, this work should be completed this fall.

The work being done in this connection is in line with the effort being made to provide employment for men who might otherwise not be able to secure positions—Camrose Canadian.

## OPTIMISTIC OBSERVATIONS

The weather is better than a week ago.

The hum of the threshing machines is heard in the land.

The snow had disappeared.

The roads are getting passable.

The police have caught the alleged Smoky Lake murderer.

Only two months to Christmas.

Next year is going to be a hummer.

What'll you have?

Help yourself.

## POOR OLD YANKS.

There are three nations left in the world that do not have old age pensions or old age security.—India, China and the United States. It might be a good idea for some civilized nation to send us a few missionaries.—Times, Milaca, Minn.

## YOUR PRINTING NEEDS

The News printing office is now in a better position than ever to attend to your printing requirements. A good quality of stock used on all jobs, and the printing is as good as you can get anywhere. We meet city prices, and in many cases are considerably lower, stock and workmanship considered. May we fill your next order?

## VIKING

A quiet wedding took place at the home of Mr. and Mrs. Fred Ross on Monday, October 20th, at 2 o'clock in the afternoon, when Mr. Haakon Lund, and Mrs. S. S. Hafso were united in marriage, by the Rev. T. T. B. Borden, pastor of the local Norwegian Lutheran Church. A few immediate relatives and friends witnessed the happy event. A wedding dinner was served at the Ross home after the ceremony.

Both bride and groom are well and favorably known in this community and a host of friends join in extending congratulations. They will reside on a farm one mile east of town. The groom is the son of Mr. and Mrs. Ole Lund of this place and has grown up in this community.

Citizens are warned to not burn rubbish, papers, boxes, etc., in their yards or on the streets and alleys, without placing them in an incinerator. Several cases of this have come to the attention of the authorities of late, and the practice must be stopped. The constable has definite instructions to prosecute anyone violating the town by-law in this respect. No further warning will be given.

There was a big turnout to the general meeting of the curling and skating association held in the town hall last Thursday evening. J. L. Slavik, president of the curling club, was in the chair.

After considerable discussion on various matters pertaining to the operation of the rink, it was decided that in spite of the general depression now existing, that it would not be in the best interests of the community to close the rink down, but that ways and means would be devised to keep open as usual.

The rink will be operated as economically and efficiently as finances will allow. Curling fees and skating fees will be lower this season, and it is believed with the co-operation of everyone interested in curling and skating, the rink can be made a success.

A list of curlers has been opened at the Alberta Lumber office, and all who are going to take part in the game this season are requested to hand in their names to Percy Finch, secretary, as soon as possible.

Another of Viking's pioneer settlers passed to the great beyond on Sunday, when P. A. Nyhus breathed his last at the local hospital after suffering from a lingering illness for some years.

Funeral services will be held today (Wednesday) at 2 p.m. from the Norwegian Lutheran church, after which burial will take place in the Lutheran cemetery.

The late Per Anderson Nyhus was born on August 18th, 1850, at Trysil, Osterdalen, Norway, and died on October 26th, 1930, at Viking, Alberta. He was slightly over 80 years of age when he answered the final summons.

He emigrated to the State of Minnesota in 1890, where he remained until 1908 when he came to the Viking district and took up a homestead, the S. W. 16-47-13. His wife predeceased him in 1917. He was always a kindly christian man, devoted to his family and church, and possessed that helpful spirit so characteristic of pioneers. His passing leaves the thinning ranks of the early settlers with one less, and as time goes on, they will be a shining memory of the hardy stock that pushed back the rim of civilization and made barren plains and arid prairie fertile lands. Blossom forth into fine agricultural lands.

He leaves to mourn his loss two sons in this community, P. P. Nyhus and A. P. Peterson, also fifteen grand children, nine great grand children, and other relatives in Norway.

George Ross, a nephew of our townsmen, Angus Ross, died at the University Hospital, Edmonton, on Friday, following an operation. The body was shipped on Sunday to his home at Beaverton, Ont. He was 27 years of age, and had been working in the Killam district for some time. Three years ago he spent the winter months at the home of Mr. and Mrs. Angus Ross and made quite a few friends here who regret to hear of his untimely death.

Local guarantors of the Canadian Chautauqua which is coming to Viking on November 11th, 12th, 13th & 14th, held a meeting in the Ellis Hall on Saturday and made plans for the ticket selling, advertising and promotion work in putting over the programs this year.

H. G. Thunell was elected president, and A. T. Richardson, secretary-treasurer. Miss Jean McKeckie, advance agent, was present and assisted in the work of organizing the committees.

This year adult tickets, good for the four days, are selling at \$2.00 each, and children's tickets are \$1.00. All school children will come under this rate. There is no amusement tax on the tickets this year, so the ticket purchaser buys his season ticket for \$2.00, or \$1.00 as the case may be, and there is nothing more to pay when he arrives at the door.

## Here and There

(619)

Western Canadian cattle almost swept the boards in 16 classes at the Washington State Fair just concluded at Yakima, Wash., when the cattle show held over by the Canadian Pacific Railway Supply Farm at Strathmore, Alberta, won fourteen first prizes and nine seconds, also taking senior, junior and grand championships in both male and female classes.

A 35½-lb. muskallong, largest to be taken from the waters of the French River this year, was caught a few days ago by F. R. Spottes, a visitor from Houston, Texas, and was entered in the annual competition for the French River Bungee Camp Trophy. The monster was landed after a thrilling fight that lasted forty minutes during which it broke water a number of times. When netted it was found to measure 49½ inches in length and 25 inches in girth. A little later the same fisherman caught an 18-pounder musky.

Modern developments in railroad traffic leading to heavier trains and increased speed is bringing about a concentrated study of the rail weights, according to Grant Hall, senior vice-president of the Canadian Pacific Railway, interviewed recently. The railway, he stated, has used 100-lb. rails since 1921 and has more than 4,000 miles of this weight steel, particularly in the heavy travel districts between the larger cities and the Rockies, but the heavier trains made possible by recently increased engine power have combined to bring up the question of 130-lb. rails which is now being studied and on which a final decision will soon be reached.

The history of the folk song in Canada will be illustrated at the Quebec Festival of French-Canadian Folk-Song and Handicrafts which will be held October 16-18 next with headquarters at the Chateau Frontenac. The Canadian Pacific Railway has again planned a comprehensive series of evening concerts of folk-songs, folk-music, dances, choral arrangements and children's play parties and dances.

All alarmist talk of world over-production of wheat is wholly unwarranted, according to Dr. W. W. Swanson, head of the department of economics at the University of Saskatchewan. Interviewed on board the Empress of Australia on his way to the Imperial Economic Conference, he instanced, in support of his view, the fact that in the midst of the campaign to reduce wheat acreage in the United States a drought had occurred which had reduced the total yield of wheat crops by more than the average wheat crop of the country.

For the second time in two years the Shagbushy Shield, emblematic of the first Aid championship of police forces in Western Canada has come to rest in Vancouver. It was won by the Canadian Pacific Railway police team of that city under the leadership of Constable W. J. Dagnall.

Reports from Gloucester recently state that the schooner "Gertrude" of the "Thousand" fleet, after making only fast under full sail. She is Gloucester's hope of re-establishing the sailing supremacy of the North Atlantic and is scheduled to meet the "Blonde" of Lunenburg in a series of three races opening of Gloucester October 9, for a cup of \$2500, the "Thousand's" trophy.

The Quebec Festival of French-Canadian Folk Lore and Handicrafts at which habitant artists born and bred on the soil of Quebec province, and well-known artists from far and wide rival one another in recovering the spirit of Old France, and old New France and the age-old culture of the Gaelic race, will be held this year October 16-18, according to an announcement made by the Canadian Pacific Railway, organizers of the Festival.

Travelling in two Canadian Pacific special trains, about 250 of the most eminent figures in the British medical world left Montreal for Winnipeg to attend the first convention of the British Medical Association held in Winnipeg. They were preceded by a group of 60 members of the British Tuberculosis Association, who attended a convention of tuberculosis specialists at Ninette, Man., before going to Winnipeg.

"In view of the fact that this is the last year in which Canada has a seat on the Council of the League of Nations, I could not resist the request made to me by the Prime Minister to represent the Dominion at Geneva," said Sir Robert Laird Borden, former Prime Minister of Canada, as he sailed for Europe recently aboard the Empress of Scotland.

Every activity of the Canadian Pacific Railway was stressed this year at the National Exhibition at Toronto, which was opened formally by E. W. Beatty, chairman and president of the road. An outstanding feature of the company's exhibit was the new 42,000-ton Empress of Britain, greatest inter-empire passenger vessel, launched by the Prince of Wales last June and to be in service between Quebec and Great Britain next year.

More than \$100,000,000 will be spent in each of the next three years on power production now under development in Canada. Although these are other plans for important building projects none will have a more intimate bearing on the industrial development of Canada than those now contemplated by the power industry.

## KINSELLA NEWS

Mr. H. Kuss of Edmonton spent  
Sunday at the home of Mr. D. Corbett.  
Messrs. Groff and Richardson of  
Edmonton arrived on Tuesday and  
will lead a few cars of gravel.

Dr. Miller of Edmonton occupied  
the pulpit of the United Church here  
on Sunday, it being the anniversary  
service, and his sermon was enjoyed  
by all present. Mr. Kerns sang a  
solo.

On Monday the Ladies Aid served  
a chicken supper in the basement of  
the church and there was a very good  
crowd. After the supper Dr. Miller  
gave an illustrated lecture and there  
were two solos by Mr. Kerns and two  
vocal duets by the Misses Miller and  
Kjoesness, also some community singing.  
The proceeds from the supper  
being \$37.00.

Miss Evelyn Corbett is spending a  
few days in Edmonton.  
The W. L. on Saturday last had a  
Hallowe'en party for the children of

the district.  
Everyone is busy threshing or try-  
ing to thresh. Considerable grain  
seems to be coming in to the elevator  
here.

The Ladies Aid will hold a Bazaar  
and Tea in the basement of the United  
Church on Saturday afternoon, Novem-  
ber 22nd.

Miss Maxwell, teacher of Lake Ver-  
non school spent the week end at her  
home near Viking.

Miss Ella Cormack returned home  
from the Viking hospital on Thurs-  
day last week.

Mr. Cunningham of Edmonton call-  
ed on Mr. and Mrs. Nease on Friday  
evening.

Rev. Geeson and family of Irma  
attended the chicken supper in the  
church here on Monday evening also  
several from Jarow, Quinte and  
Phillips.

Mr. J. Allen and daughter are  
spending some time in Edmonton.

## JARROW NEWS

Threshing is in full swing once  
more. If the weather continues fine  
for a couple of weeks it will practi-  
cally be completed in this district.

Miss Janet Carter has returned to  
Jasper after visiting for a week here.

Mr. H. McGuire spent the week end  
in the city.

Mr. Arnold Christensen is quite ill  
again. He will be confined to his  
bed for a week or more.

Mr. Robert Heron is suffering from  
a severe attack of Pleurisy. He was  
reported some better but has been  
very ill. Mrs. McCracken of town is  
staying at the Heron home and assist-  
ing in the care of her brother.

Quite a number from here attended  
the fowl supper and entertainment  
put on by the Kinsella Ladies Aid on  
Monday. An excellent supper was  
served and the entertainment most  
enjoyable.

Dr. Millar of the University of Al-  
berta took the church services here  
on Sunday and was thoroughly enjoyed  
by all who heard him. He remained

in town until Tuesday, lecturing in  
Kinsella Monday night.

Mrs. Orr, Mrs. Peet and Mrs.  
Meakins were Hardisty visitors on  
Tuesday.

Mr. J. C. Curlett who is visiting  
here, received news on Tuesday that  
his son J. C. Curlett of Deville had  
had the misfortune to lose his store  
and house by fire on Monday.

Mrs. Ray Moore and family are  
leaving this week for California to  
join her husband. She will be away  
all winter.

Mrs. Paul Loring and baby daugh-  
ter returned from Viking hospital on  
Monday.

The Ladies Aid tea on Saturday  
was not very largely attended but  
some lovely fancy work and some of  
the more useful things were received  
and will be sold on the night of  
November 7th. We also believe the  
ladies are putting on a sketch that  
will be real good that night. Don't  
miss it!

## From Halifax Back to Duncan

By Hugh Savage

The last four months have led me  
over a long trail, into close touch with  
those primarily charged with the  
making or marring of what we call  
the British Empire. A procession of  
wonderful events passed before us in  
June in England and Scotland while in  
July and August there was opportunity  
to see something on one's own of  
life and conditions in the Motherland.

Here I propose to put the first last  
and give some impressions of these  
weeks which elapsed between my re-  
turn to Canada and that event which  
is always a delight, namely, getting  
back home.

From Quebec to Halifax is a night  
and day journey. It is a lumber coun-  
try through New Brunswick, though  
the logs look tiny to B. C. eyes. It is  
also a great hunting and fishing coun-  
try and here is a fact which readers  
here and elsewhere in Canada should  
note. Americans, singly or in groups,  
have acquired crown grant titles to  
areas of land, lake and river, own  
them outright and are preserving and  
enjoying the sport. Residents of given  
localities cannot fish in what they  
have considered their own streams.

I mention this to show that sport  
is a valuable asset, that it constitutes  
property. American or Canadian  
owners of such assets have exclusive  
rights to enjoy their property and to  
protect it, but the ordinary person  
who has had the range of forest and  
stream from boyhood should realize  
what has actually happened in New  
Brunswick and probably will happen  
elsewhere as Canada develops.

### Maritime Hospitality

If ever you want a holiday in Can-  
ada, among really hospitable people  
who have not become satiated with  
tourists and conventions that they  
look upon them solely as a commercial  
proposition, go to the Maritimes. You  
may learn all you wish before hand  
by simply addressing the Department  
of Information, Halifax.

Seven years ago members of the  
Canadian Weekly Newspapers' As-  
sociation made an almost royal progress  
through the provinces of New Brun-  
swick, Nova Scotia and Prince Edward  
Island. Everywhere kindly folk came  
in groups and crowds to inquire of  
some Maritimer who had gone to live  
westwards. As many first things,  
such as the birth of Canadian litera-  
ture and journalism or the first An-  
glican bishopric, took place "down by  
the silver sea" so from these provinces  
came out many of the leaders,  
politicians and lawyers, teachers  
and clergy, of the Canada of today.

Then there was much talk of "con-  
federation" injustices and even of  
"secession." There is none audible  
now. Some reforms have followed  
the report of the Duncan commission  
and, though the sea is unemployment  
in Cape Breton and scarcely a ship  
in Halifax harbour, it is invigorating  
to catch the spirit abroad among the  
leaders.

In the apple country of Evangeline,  
whither we were taken by the Do-  
minion Atlantic Railway, there are  
the birthplaces of a new commercial  
order in marketing, similar to those  
experienced in the Okanagan. Hal-  
ifax now boasts two modern hotels,  
the Lord Nelson, operated by the C.  
P. R., and the Nova Scotian, a jewel  
worthy of inclusion in the C. N. R.  
chain.

### Protect Our Ports

The Maritimes still have to watch  
wheat and other commodities roll  
from Canada for shipment through  
foreign ports. In these days of pro-  
tection it would seem good policy to  
keep Canadian trade in Canadian  
ports, especially when they are as  
well equipped as Halifax, even though  
the country at large had to assume  
the cost of meeting competitive United  
States rates.

The C. W. N. A. convention is al-  
ways a gathering of Canada in mi-  
niture. This year some 250 editors  
and ladies assembled. They came from  
the Yukon to Newfoundland and "in-  
termediate points." The three days'  
proceedings were full of interest, for  
every morning was devoted to busi-  
ness and every afternoon and evening  
to sight-seeing and entertainment.  
The Lieutenant-Governor, the govern-  
ment, the city, the Harbour Commis-  
sioners, the railways, the Board of  
Trade and the daily newspapers con-  
spired to honour their guests.

This national association of week-  
ly newspapers continue to grow in  
prestige and influence and in demand  
on the time and attention of its lead-  
ers. As one speaker observed, it has  
never emphasized the power of the  
press but it has continually impressed  
on its members the opportunity of the  
smallest newspaper to fulfil a just  
debt and render service to Canada.  
And that work lies about each weekly  
newspaper office, large or small, in  
endeavour each week to cultivate in  
its own community a consciousness of  
Canada.

At Halifax I was 1,322 miles nearer

to Liverpool than to my home. The  
very vastness of Canada would make  
for provincialism and narrowness of  
vision were it not for the gift of mod-  
ern means of communication, not least  
among which is still enthroned the  
newspaper press.

### In Old Quebec

I spent parts of days in Quebec,  
Montreal and Ottawa and two days  
in Toronto, where Premier Ferguson  
was re-organizing his cabinet and  
clerks played midget golf on vacant  
lots beneath towering skyscrapers. In  
Quebec the Basilica has been rebuilt.  
I was there the guest of the mayor  
and mayors at a very fine historical  
pageant presented in connection with  
the Quebec exhibition, where a loud-  
speaker (in the French language) in-  
troduced me and others to assembled  
thousands of children and adults.

How little English-speaking and  
French-speaking Canada really know  
of each other's lives or thoughts or  
even publications! The average British  
Columbian is probably better ac-  
quainted with the state of Washing-  
ton than with Quebec or the Mari-  
times.

In Quebec I found M. Maurice Bro-  
deur, who has designed a flag which,  
it is hoped in influential circles in  
Quebec, may be adopted for use in  
Canada. It is similar to the Canadian  
merchant shipping flag, save that the  
shield of arms is replaced by a white  
shield bearing a green maple leaf  
solely. This flag was presented to  
Miss Canada by Miss Quebec in the  
concluding act of the pageant I have  
mentioned.

If every province or city is to be  
permitted to design and adopt a Can-  
adian flag and use it in the hope that  
such usage may spread throughout  
the Dominion the confusion will be  
worse than that caused by the many  
sets of words sung to "O Canada."  
This latest Quebec movement should  
be a further reason for speedy deal-  
ing with this national matter by par-  
liament.

It could be debated free from party  
lines, as was the honour question,  
and, if it be decided that the time has  
come for a distinctive flag for Can-  
ada, all that remains is to appoint  
competent judges and invite designs.  
Stacks of these designs have already  
been received by individual ministers  
and members.

Three newspaper conventions, two  
of three days each, in three weeks,  
should be enough for any editor. I  
attended the meeting of the Manitoba  
weekly publishers at Brandon and  
the B. C. and Yukon meeting at Cour-  
tenay, B. C.

There is space only to tell you  
that, if you would see the Rockies at  
their best, choose September, when the  
gold of the deciduous trees splash-  
es on a veritable Turkey carpet of  
slope and crest. Yet you will still  
spare a thought for the chocolate mud  
of the seaways awaiting the tide  
where Blondin looks over the Anna-  
polis Valley.

## Here and There

(531)

Arrangements have been com-  
pleted whereby the arrival in Can-  
ada of the R-100, Britain's huge  
airliner, will be broadcast through-  
out Canada and the United States  
by the Trans-Canada Broadcasting  
Company and the National Broad-  
casting Company, according to an-  
nouncement recently made by R.  
W. Ashcroft, manager of the former  
company. The official broadcast,  
which includes the arrival of the  
ship and attendant ceremonies, will  
be carried from coast to coast of  
the Dominion over the new radio  
programme broadcasting transmis-  
sion system of the Canadian Pacific  
Railway Company's telegraphs.

Welcoming the latest addition to  
the Canadian Pacific line way's  
fleet of 19 passenger vessels on  
ocean and coastal service in Brit-  
ish Columbia, Vancouver recently  
congratulated the railway on its  
initiative and foresight in building  
upon the west coast of Canada a  
service second to none, on the oc-  
casion of the arrival of the "Prin-  
cess Elizabeth" at the Pacific port.  
The sister ship, "Princess Joan"  
arrived at Victoria the following  
day. The "Elizabeth" was wel-  
comed by the Mayor of Vancouver.

Marking the passing of another  
milestone in the history of the  
company, the recently constructed  
Pacific branch line from  
Willington to Vegreville, a dis-  
tance of about 30 miles, was de-  
clared open for traffic recently with  
the arrival of the first passenger  
train at the Vegreville station.

With a record reservation list  
indicating a very busy season  
ahead, the Banff Springs Hotel  
welcomes its first guests of the  
year: May 15. Considerable im-  
provement work has been done on  
the 18 hole golf course which was  
virtually ready for play on open-  
ing day.

Development of fruit growing on  
the prairies has been one of the  
features of agricultural progress in  
recent years in western Canada.  
Patches of native gooseberries, cur-  
rants and raspberries have evolved  
into orchards containing many  
varieties of plums, cherries, apples  
and small fruits. The largest  
acres are devoted to strawberries  
and raspberries.

## Here and There

(134)

The biggest day for grain hand-  
ling that the port of Montreal has  
experienced this season was regis-  
tered on August 21st, when deliv-  
eries went well over the 2,000,000  
bushel mark for the 24 hours, and  
receipts were recorded at nearly  
1,500,000 bushels, a total handling  
of 3,500,000 bushels for one day.

The almost complete absence of  
forest fires with their smoke  
screens marring scenic effects—the  
brilliant clearness of the air in this  
region has made the present tourist  
season the best on record in Brit-  
ish Columbia. Many touring parties  
travelled over the Canadian  
Pacific lines, some breaking the  
journey to motor over the pictur-  
esque Banff-Windermere highway.  
Among other groups may be men-  
tioned the Alpine Club of Canada  
which held its camp at the Lake of  
the Hanging Glacier, followed by  
the T. R. Riders of the Canadian  
Rockies.

Approximately 250 new elevators  
have been constructed throughout  
Alberta this year. It is estimated  
by local grain men. The total  
capacity of these elevators would  
be about 18,000,000 bushels. It was  
stated. Complete figures for elevator  
construction in the province  
were not available, but grain men  
stated that extension of facilities  
had been progressing rapidly in all  
parts of Alberta. The capacity of  
the elevators varied from 35,000  
bushels to 140,000 bushels. The  
Alberta Wheat Pool alone has 110  
grain elevator companies have in-  
1927 and practically all the public  
grain elevator companies have in-  
creased their storage capacity.

For the first season in a number  
of years the Nipigon trout may be  
said to abound. Hydro-develop-  
ment with accompanying fluctua-  
tions in water levels, threatened  
extinction of this exceptionally  
fine fish, but the careful regula-  
tion of the past three seasons has  
apparently restored the world's  
most famous trout stream to some-  
thing of its old standing. Six  
guests of the Bungalow Camp here  
brought in 125 pounds of fish yester-  
day, counting a fair number of  
four and five-pound trout caught  
mostly at the entrance to Lake  
Polly. Pike and pickerel still  
abound in large numbers, so it is  
thought that the restoration of the  
water level rather than the destruc-  
tion of natural enemies has brought  
back the Nipigon trout.

## A MILLION FAT FOLKS CAN'T BE WRONG

And that's a low estimate of the number taking Kruschen to keep down superfluous fat.

When you take vitalizing Kruschen Salts for a few days that old indolent arm - chair feeling deserts you - it doesn't matter how fat you are - the urge for activity has got you - and you're "stepping lively."

And best of all you like this activity - you walk a couple of miles and enjoy it - you thought you'd never dance again, but you find you're getting as spry as ever - the old tingling, active feeling reaches even your feet.

Kruschen is a combination of the six salts Nature has already put into your body to keep you alive - if it were not for these vital salts you could not live.

One bottle is enough to prove to you that Kruschen will make you feel younger - spryer - more energetic - you'll enjoy life - every minute of it.

A half teaspoonful in a glass of hot water every morning is all you need to keep healthy - keep your stomach, liver, bowels and kidneys in splendid condition - free your system from harmful toxins and acids.

## WORLD HAPPENINGS BRIEFLY TOLD

Forty nations have agreed to send delegates to the first International Air Security Congress in Paris, December 10 to 23.

The British Government has announced that the official British census of population, taken every ten years, will be made on Sunday, April 24, next.

The prospect is held out that there may be a reduction in the United States tariff rate in the Canadian delicacy, maple sugar, before the sap begins to run next spring.

A woman, Miss L. R. Purser, Maidenhed, England, has won the King's silver cup for the best cultivation of root crops, at the East Berkshire Agricultural Show, for the first time in 90 years.

Felix Lojero, French flyer, who cracked up his plane, October 18, near Orshi, White Russia, in an attempted flight from Paris to Uta, was arrested on charges of flying over Russia without a permit.

William Lajonchere, former member of the Manitoba legislature, is dead at his home in Lorette, Man., aged 71. He was a descendant of Marie Anne Gaboury, the first white woman in Western Canada.

The appeal of the Toronto Evening Telegram against the judgment of Mr. Justice Jeffrey, who awarded \$5,000 to former Mayor Sam McBride in a libel action, was dismissed by second divisional court at Osgoode Hall.

Reports reached head office of the Banque Canadienne Nationale to the effect that a branch at the village of Lac Frontiere, 15 miles from St. Camille, Beauce County, Que., had been held up and robbed. About \$1,200 was taken.

Reaching its lowest level since previous days the price of bread dropped to six cents a loaf retail at Halifax. The reduction is attributed to a steadily falling wheat market. Consumers now are paying half the price asked a month ago for a 24-ounce loaf.

## Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and I feel fine now. I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. #4, St. Catharines, Ontario.

## Relief Activities

Hon. Howard McConnell Reviews Relief Work in Saskatchewan Drought Areas

Details of relief activities in the dried-out areas of Saskatchewan undertaken by the Provincial Government and by the municipalities affected, with governmental aid, are given in a statement issued for publication by Hon. Howard McConnell, Provincial Treasurer and Minister of Municipal Affairs in the Saskatchewan Government. Text of the statement follows:

"In connection with relief given to farmers in the dried-out areas of the province last year, the Provincial Government distributed \$919,000. This was made up as follows:

- 1.—Freight paid by province on fodder shipped to such areas ..... \$450,000
- 2.—Relief roads built by province in such areas ..... \$350,000
- 3.—Relief provided by Government for flour, fuel and fodder together with seed grain in Local Improvement Districts in such areas ..... \$119,000

Total ..... \$919,000

"The rural municipalities in such areas contributed \$1,954,000 for the relief of farmers in such areas, particulars of which are as follows:

- 1.—Sums advanced by municipalities to farmers for relief purposes to purchase flour, fuel and fodder ..... \$1,750,000
- 2.—Sums advanced by municipalities to farmers residents within their borders for seed grain ..... \$204,000

Total ..... \$1,954,000

"Urban municipalities received from the Government for unemployment relief, \$50,000. The Provincial Government guaranteed the repayment to the banks of all loans made by the banks to such municipalities to enable them to dispense such relief.

"This year again, the major portion of the municipalities suffering drought last year, are again experiencing adverse conditions. The position of a great many of the people residing in such areas is serious. To assist the farmers in these areas this coming fall and winter, the Government is spending approximately \$1,500,000 in relief road camps. Between forty and fifty such camps having been already established. Further, to assist many municipalities, the Government is advancing this year, new municipal road grants. In some municipalities where the situation requires more than ordinary attention, but where road camps were not established, the Government is contributing to such municipalities an extra grant. The Government appreciates that such road camps do not completely solve the situation in these municipalities, but they do permit the residents in these areas to receive \$1,500,000 on account of such road work. These camps will be continued until freeze-up. On account of adverse conditions, the Government is not asking for any contributions from such municipalities toward such road work.

"Further to assist the farmers of these dried-out areas, the Government is again, this year, paying one-half of the freight on all hay and fodder shipped into these areas by the railways, the railways paying the other half of the freight. The portion of such freight chargeable to the Government this year, will approximate \$500,000.

"Requests have been made on behalf of a great many of the municipalities in the dried-out areas that the Government, with the assistance of the railways, supply coal free of all freight charges, to the residents of such dried-out areas. The Government approached the railways with a request that the railways absorb one-half of all the freight charges on Saskatchewan-mined coal shipped to the dried-out areas for relief purposes, agreeing to pay the other half of such freight. The railways, however, were unable to agree to this proposal. The Government has decided, therefore to assume one-half of all freight charges on coal mined in Saskatchewan and shipped to the rural municipalities in the dried-out areas, on their order, for relief purposes in such rural municipalities, this policy to take effect immediately.

"The expenditure incurred and to be incurred by the Government this year in granting relief to the residents of the dried-out areas will approximate \$2,500,000. The Government is receiving from the Federal Treasury the sum of \$500,000 for relief purposes in the dried-out areas. This \$500,000, it will be seen, will only take care of a small portion of the money which the Government has spent this fall and is spending for such relief in such areas.

"The Federal Government is further assisting Saskatchewan in the matter of unemployment by a further contribution of \$1,000,000 to be

## ISSUES STATEMENT

Hon. Howard McConnell, Provincial Treasurer and Minister of Municipal Affairs in the Saskatchewan Government.

used in assisting to pay for certain public works to take care of unemployment in the municipalities of this province. For every dollar that the Federal Government puts up, the Provincial Government must contribute one dollar and the municipality receiving such assistance must pay two dollars. In other words, if the contribution of \$1,000,000 from the Federal Government is spent, then the total amount that the Provincial Government must contribute will be \$1,000,000, while the municipalities must contribute \$2,000,000, thus making a total of \$4,000,000.

"This year, as last year, the Government again proposes to continue to guarantee the banks against loss for loans made by them to the municipalities in districts where, on account of crop failures or other adverse conditions, such assistance is necessary. Further details in connection with the administration of relief will be worked out in due course.

"The Government wants to emphasize that all public works proposed by municipal authorities, must be planned to provide the maximum amount of employment with the minimum expenditure of materials on such work. Any project which does not keep this in mind, cannot be entertained by the Government. It wishes to emphasize again, that the relief to be distributed is to be distributed only to those municipalities whose resources are insufficient to enable them to provide for their own unemployment. This is a fundamental principle laid down by the Federal Government and will not be departed from."

## Return To Old Method

Manitoba Farmers Are Hauling Their Wheat To The Mills

Manitoba farmers are back to the grist-mill days of a generation ago, and are hauling their wheat to the mill instead of selling to agents of the larger milling interests. From miles around, farmers are hauling their grain to mills at Holmfield, Somerset, Wawanesa and Morden. For a bushel of No. 1 Northern—60 pounds—farmers receive 40 pounds of flour, 15 pounds of bran, and three pounds of shorts. The other two pounds are allowed for waste. The usual charge for grist-milling is 20 cents per bushel. As in the old days, the farmers draw up their wagons and stand alongside, discussing the topics of the day.

## A Scientific Lung

Through the invention of Dr. Philip Drinker, of the Harvard School of Public Health, persons who now suffer from lung trouble have a "scientific lung" available. This machine is said to be able to keep alive for weeks persons whose breathing apparatuses get out of order or cease functioning altogether.

## Licensed Taxidermists

Under the Migratory Birds Act, no person is allowed to engage in the business of taxidermist without first having secured a license to do so from the Minister of the Interior. The taxidermist must not handle any bird that has been illegally killed, and every year he must make such returns as the Minister may require.

Cuba plans to establish its first national park, for protection of native plants and trees.

## Nervous Headaches

due to over work, are quickly dispelled by Minard's. First heat the Liniment—then inhale it for a few minutes. It has a speedy curative effect.

## Real Service To Travellers

Railway Station At Naples Has "Walking Telephone"

Nine out of ten inventions these days seem to be those for saving time and energy.

And one that has just been put into service at the railway station at Naples surely caps the list, for it is nothing more or less than a walking telephone.

A number of boys dressed in uniform, carry, suspended round their neck a telephone.

From the telephone hangs a long reel of flex, which is quickly connected to a plug on the station wall. The telephone is then ready for use, and the carrier stands and waits your convenience whilst you transact a business deal or a friendly chat over the instrument.

Having completed your conversation you pay the required fee—which is very small—and the "telephone" departs to another likely customer.

(By Eva A. Tingey).

## ATTRACTIVENESS FOR MATRONS

All Tingey models are created and sketched in Paris and the patterns are made in New York.

Most matrons—and others too, will love this adorable dress. It is extremely graceful, easy to make and plain and smart, just beside that all important thing—slimming!

Its likable crossover roll collar merges into the waistline sash. The skirt is wrapover top, of course—a dotted line showing where the under-skirt reaches. There is ample wrap which insures the model keeping well adjusted.

A box of self material is pretty posed on the collar. In the original it was lined with rose or Patou pink as was also the waist sash.

Printed materials with plain sash and bows linings or this order reversed with beige, navy and white, or black with white, pink, jade or turquoise are all modish schemes.

This pattern may be obtained in sizes 14 to 20 and 34 to 44. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name, age, address, the number of the pattern and the size you want.

## Five Day Work Week

American Federation of Labor Gives Support To Movement

The American Federation of Labor annual convention at Boston, gave its full support to the five-day work week movement. Definite action on the five-hour work day was deferred for another year.

In endorsing the five-day work week, the convention concurred with the report of the federation executive council. Figures submitted by the council showed that more than 500,000 members of the federation are now working a five-day week. The statistics indicated that the movement had made greatest strides in the building trades industry.

The question of the five-hour work day was referred to the executive council with instructions that it make an exhaustive study of the entire work day problem and report at the next annual convention with recommendations for the length of the work day and work week.

The report of the committee on a shorter work week expressed the belief that the shortened work day would not be the absolute cure for unemployment. It made reference to the past played by wages, saying: "Unemployment such as we have experienced in our country, is manifestly due, principally to the fact that wages paid have not increased in proportion to our per capita production in industry, transportation and farming."

The report also said the present business depression was not due to the collapse of the stock market, but to a condition which developed during the past six or seven years.

## Taking Exhaustive Census

B.C. Government To Ascertain Okanagan Fruit Yield On Irrigated Land

The most exhaustive census ever undertaken in Canada to ascertain the condition of an agricultural industry has been launched by the government in the Okanagan fruit business immediately. Under this scheme, the government will ascertain the value of every acre of irrigated land in the Okanagan Valley, where it has loaned money to irrigators.

The farmers will be asked by questionnaire to inform the government in detail of their crop yield of every kind in every year since 1925, the number of kinds of their fruit trees and the annual income.

On this exhaustive census, the irrigation system of British Columbia for the future will be based. In effect, the census will create a new status of all irrigated land in which the government is directly interested, so that when water rates are finally fixed they will be levied according to the productive value of every farm.

## Humble Genuines Solve Problem

A. E. Jackson, bus driver of Chiswick, England, solved a problem which has puzzled some of the most brilliant men of England. He has perfected an automobile headlight that does not dazzle. All his experimental work was done on his kitchen table, with bits of old metal and such tools as he was able to afford. The light has been tried out for more than a year and has been pronounced successful.

## Erect German Memorial

In memory of German undergraduates of New College, Oxford, England, a tablet has just been erected in the chapel of the college. It bears three names and the following inscription: "In memory of the men of this college who coming from a foreign land, entered into the inheritance of this place and returning, fought and died for their country in the war, 1914-1918."

## Canadian Fox Export

The export of Canadian live foxes to Germany continues to increase in number. During 1929 a total of 892 valued at \$259,552 were shipped from the Dominion as compared with 375, valued at \$105,360 in the previous year.

The amount of natural and artificial gas produced in the world in a year would fill a dirigible a mile in diameter and 20 miles long, powerful enough to lift the Egyptian pyramids.

## Manitoba Buys Western Coal

Manitoba bought 135,000 tons of Alberta and Saskatchewan coal from June 15th to September 25th, according to F. G. Neate, secretary of the Dominion Fuel Board.

Old Lady: "Captain, will you please come down to see what's the matter with my staircase? It's jumping around terribly."

The Incas of Peru, who built remarkable stone houses, did not apparently use tables or chairs.

## Spending Christmas and New Year's At Sea

Life Saving Patrol At Esquimalt Receives Orders From Ottawa

The ship's company of H.M.C.S. Armentieres, whose base is at Esquimalt, will spend both Christmas and New Year's Day on the high seas, according to orders that have gone forth from the Department of National Defence at Ottawa. "Armentieres" will undertake life-saving duties off Bamfield, B.C., Barclay Sound, and the coast of Vancouver Island adjoining. This patrol is an annual feature during the winter, shared between the ships of the Department of Fisheries and those of the defence forces. This year it falls to the lot of "Armentieres" to be at sea from December 15 to January 14, 1931, and from February 6 to February 28.

The duties involve the searching for wrecks on the storm-lashed west coast of Vancouver Island.

## DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The safe and harmless way. First correct the cause, sweeten the sour stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bowels moving and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkgs.

## Jap Chauffeurs Have Assistants

A. G. Williams, a New York visitor from Osaka, Japan, says that in the big Jap cities taxis have chauffeurs and assistant chauffeurs one to drive and one to watch the road, the populace swarming over the highways with no thought of danger.

## Grows White Tomatoes

A returned soldier farmer at Chilliwack, B.C., after many years of experience, has produced a white tomato, which is non-acidic and has been cultivated especially for its medicinal purposes.

## When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

## Don't Let Constipation Lead You Into Serious Illness

Serious rectal troubles, piles, paralysis, hemorrhoids, are frequently the result of using cheap cathartics.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO in a glass of water every morning, tones up and sweetens the entire system.

### CHAPTER III—Continued.

"Thank goodness then, that you didn't discover me before!"

"Is it so awful—kissing me?" asked Nick.

"It would be awful kissing you good-by," answered his wife demurely.

"For that," he said, putting his arm about her, "you shall have another."

"Gay," he continued with mock severity, "we're downright silly. I wouldn't have believed we could be here so. And I suppose you're right. We've sponged on Mr. Bartlett long enough. Say, let's ask the old man up to supper. It would tickle him to death."

So Simon Bartlett was their first guest. He arrived panting, after the hard pull up the foot path that led from the wood road.

"I take this kindly, ma'am," he said, sinking down breathless on the porch, and mopping the dampness from his brow with a huge handkerchief. Although evening was approaching he carried his umbrella. Indeed, he seemed almost afraid to give it up when Gay offered to relieve him of it.

"Never travel without it, ma'am," he repeated. "Shouldn't hardly feel at home if it wa'n't along. Well, well, this looks real cozy, don't it? Built this place for my old woman, ma'am, before I got so confounded fleshy. Time was when I could come up that path without hatin' an eyelash, same as Nick here. A good boy, Nick. You didn't make no mistake when you picked him out."

"She didn't do the picking," laughed Nick. "I picked her, and then didn't give her time to think about it."

"Well, well," chuckled the old man. "Just you take care that she don't regret it. By gorry, this ain't by any chance your honeymoon, be it?"

Gay blushed; but Nick only laughed at their guests' embarrassing interrogation.

"We hadn't been married ten minutes when you met us, Mr. Bartlett. In an instant the old man was serious."

"You ain't rumm' away from your folks, be you?" he asked soberly. "If

you might, my, always bein' sure o' my old woman, and signin' the pledge at twelve year old. Do I smell chowder, ma'am?"

"That sounds," laughed Gay, "like a gentle hint for me to go. Shall we have it here on the porch?"

"That would suit me fine, ma'am. Me and my old woman used to eat here summer evenin's. Sometimes the hermit thrushes would sing for us. We called 'em our orchestra; and a darn darn pretty music it was."

"What comes out of the brass band over to Meller's Falls?"

"We'll agree on that," said Nick. "They sang the night we came here. I told Gay it was a bridal chorus, sung specially for us."

"And I don't doubt it was, sonny," said the old man gently. "You run along now and help your missus dish up supper. You don't need to make company o' me; and I ain't one that b'lieves a man's place is on the front porch while his wife is rastlin' with the kitchen stove or the dish pan."

"Nor am I," said Nick, rising to obey. "You can ask Gay if I'm not a champion dish-washer."

It was a festive little supper, and Simon Bartlett pronounced: his hostess a "first class cook," a tribute that brought the happy color into Gay's cheeks, and a proud light to her husband's eyes. Later, when the world was drenched in moonlight, they escorted Mr. Bartlett home.

"I've had a real good time," he said in parting. "Don't know as I've enjoyed anything so much since my old woman went away. Stay as long as ever you've a mind to, but not a minute longer. I know how this. Once I had that longin' to see new things myself; but it's long years now since home seemed the best place of all. Gorry! if it want for all the things I've got to remember, I'd almost 's'pose you startin' out with the whole o' life before you. Goodnight, youngsters; and don't you go forgettin' the good advice I give you."

He chuckled, but Nick said soberly: "I shan't forget, sir."

"Nor shall I," Gay promised. She laid a gentle hand on the old man's. "If I don't see Nick happy it won't be because I forgot your warnings, and—I think you."

"You're a good girl," he answered, patting her hand before releasing it. "You've given a lonely old man a happy evening."

"What a dear he is," said Gay, as they rode away. She suddenly was reluctant to leave this kind old friend, standing alone before a house that showed no welcoming lights.

Nick looked at her tenderly. "You're something of a dear yourself, Gay. I don't see how I could look old Simon's heart by storm. Poor old chap! His wife's been dead for years, but he always speaks as if he had just left him. I'm glad we thought to have him up for supper."

"It was you who thought of it," said Gay. "You thought of everybody. She mustn't closer, to rest her cheek against his arm. 'Nick'—"

"Well?" Nick questioned, as no words seemed forthcoming.

"I've been wondering."

"Wondering what?" He looked at her amusedly. "It seems to be difficult to say."

"It is," Nick. "I think you're wonderful!"

"Is that all?" Nick queried, with a slow smile.

"No. There's a problem been troubling me all evening. I can't face it alone, and—"

"Of course you can't—you've got me to face it with you! But, my dear girl, I thought it was to escape such things as problems that we came away. Anyhow, we won't face it till we're back at camp. I'm going to take you the long way round. It's a glorious night to ride."

It was so glorious that they forgot the flight of time. It was late when they reached the cabin, but despite the hour they sat down together on the porch, and Nick reached for his wife's hand, twisting the slender wedding ring around her finger.

"You've guessed this was my mother's, haven't you? She told me to keep it till I found the one girl in the world. I used to think I'd never use it—or not for years and years. No settling down for me! I was to be a vagabond, you know—traverse the earth—conquer the world! Oh, Gay, what a kid I was, even a week ago!"

She stifled uneasily. "And aren't you now?"

"My dear, how can I be a kid? I'm a married man!"

He was laughing; but Gay said soberly: "But—I like having you a kid, Nick. You're only twenty-one—it is that?"

"Oh!" said Nick. "I see. I'd forgotten the problem. Trot it out, young lady, and we'll go to it; though you've no moral right to produce the abominable thing on a quest for freedom."

(To Be Continued.)

Trees need enormous amounts of water. An apple tree, 30 years old, will give off approximately a barrel of water a day.

Use Minard's Liniment for Toothache.

## BENEFIT

No other sweet lasts so long, costs so little or does so much for you.

## WRIGLEY'S

Promotes good health when used regularly after every meal.

It cleanses teeth and throat, sweetens mouth and breath, and strengthens the gums.

Your health is aided while your pleasure is secured.

Good and Good for You

AFTER EVERY MEAL

### Takes On New Job

Engineering Wizard Will Build Tunnel Under Mediterranean Sea.

Paul J. Moranti, the man who put Wall Street on stiffs and carved a half-mile ditch through the world's greatest financial section without disturbing the powder, on a stenographer's nose, is seeking new holes to dig.

He looks forward to his next job—building of a railroad tunnel under the Mediterranean Sea to connect Spain with Morocco. The Spanish Government has appointed him consulting engineer for the project and he will leave soon to make borings off Gibraltar.

Moranti's task of constructing a subway excavation to link the lines of the Brooklyn-Manhattan Transit system is practically completed.

One year ahead of schedule. Seven hundred men contributed to the work and it will cost the city \$5,735,149.

In executing a job that experts said could not be done without suspending operations on the markets, Moranti jacked up 35 skyscrapers; shifted a solid mass of electric conduits; gas, water and steam pipes; removed a brick sewer; sank his supports in quicksand; dumped the excavated mud thirteen miles at sea, and fought every step of the way.

He has been called a "wizard" by pedestrians on the narrowest streets in the city.

### Songs Of The People

Passing Of The Popular Song Of Previous Decades Is Noted

Has any durable and widely sung popular song been written in the last decade—anything comparable in the range of its appeal and the length of its life to such ditties of our parents as "After the Ball Was Over," "The Man That Broke the Bank," or "Daisy Bell"? The question is suggested to the Manchester Guardian by the plight of the sheet-music publishing business in New York where, according to the chairman of the Music Publishers' Protective Association of America, a loss of some \$5,000,000 has been made on sheet-music sales since the advent of the "talkies."

It is an imposing figure, but the fact had set in before the "talkies" came to accelerate it. The mechanization of music has for many years been killing the popular song of the old sort. The machines must be fed, and an over-production of standardized raw material is now available to feed them. No singer has had more music available than ours. It can be turned on in any home almost as simply as the water tap. Yet none has been so barren in producing songs of the people.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

Active Prospecting Year

Valuable Mineral Discoveries Reported in Northern Alberta

The adjournment of prospecting operations in Northern Alberta this season will bring to a close one of the most active prospecting years in the history of the province. Five major campaigns have been carried on intensive exploration work with the use of airplanes and at considerable cost. Valuable mineral discoveries are reported to have been made and much valuable data secured.

Minard's Liniment refreshes the scalp.

London has been invaded by an army of street baggage players.

W. N. U. 1861

### Should Bring Results

Matrimonial Ad In Japanese Paper Is Very Tempting

The matrimonial advertisement has recently been introduced into Japan, and we have just seen the translation of a quaint specimen. It reads:

"I am a beautiful woman. My curly hair is like a gentle wave. My figure is supple as a reed, and my skin soft as silk. I possess a large enough fortune to go safely through life at the side of my beloved. If it were my good fortune to meet an honorable man, well-bred and intelligent, I would remain always kind and obedient to him, and would happily share with him eternal repose in a tomb of rose colored marble."

All very tempting—even to the offer of the rose-colored marble tomb, which would appeal to the Japanese rather than to the British mentality.

### A Satisfactory Arrangement

Michigan Barbers Accept Wheat In Pay For Haircut

The barbers of Sparta, Michigan, have agreed to cut hair for wheat. For one bushel of wheat any farmer living in the city can obtain an artistic hair cut and 27 cents cash farm relief.

The decision to accept wheat instead of money was reached at a meeting of all Spartan tonsorial artists at which the present plight of the agricultural industry was discussed. Wheat is selling here for 67 cents a bushel and a trim is valued at 40 cents.

Chickens belonging to Spartan barbers will benefit by the offer.

KEEPING BABY LOVELY AND WELL

Some babies thrive from the hour of their birth while others make so little progress as to be the cause of much anxiety. As a rule it is the digestion that is at fault with these backward ones and they start to go ahead directly Baby's Own Tablets are made the corrective of their stomach and bowel troubles.

Baby's Own Tablets are specially designed for the use of babies and little children. They are absolutely safe and the mother can feel perfectly secure in giving them to even the most delicate child. They are a mild but thorough laxative which banish constipation and indigestion; break up colds and simple fevers and allay the pains which accompany the cutting of teeth. They are sold by medicine dealers or by mail at 25 cents a box from "The Dr. Williams' Medicine Co., Brockville, Ont."

New Industry In Palestine

Palestine is becoming important as an orange-producing country, the fruit grown there being said to have a specially fine flavor and appearance. Jews in Palestine have invested over twenty million dollars in orange groves and new ones are being set out all the time. And so the future of Palestine brightens.

Recent experiments indicate that flies avoid entering rooms lighted through red or yellow glass.

Will Visit Winnipeg

The United States Junior Chamber of Commerce National Convention to be held in Des Moines, Iowa, in June, 1931, is to organize a post convention tour to Winnipeg, led by the national president, Dunward Howes of Los Angeles.

## WHEN PAIN COMES...

Two hours after eating

WHAT many call "indigestion" is very often nothing but excess acid in the stomach. The stomach nerves have been over-stimulated, and food sores. The corrective is an alkali, which neutralizes acids instantly. The best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard anti-acid with physicians in the 50 years since its invention.

One spoonful of this harmless tasteless alkali will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this more pleasant way. A small bottle is sufficient to show its merit.

Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for more than 50 years in correcting excess acid. 50¢ a bottle, any drugstore. Complete directions for its many uses are enclosed with every bottle.

The Genuine Milk of Magnesia is always a BUILD-UPPER a TONIC. Look for the Phillips' name on the bottle.

**PHILLIPS' MILK OF MAGNESIA**

## Canada's Trans-Atlantic Challenger

While her builders maintain secrecy as to her engines, the new Canadian Pacific liner "Empress of Britain" is hailed by newspapers in the Old Country as a challenger in the Atlantic speed race. The London Daily Chronicle declares that "she will prove a formidable rival of the Bremen, and in any case will set up a new Atlantic speed record, for the journey from Southampton to Quebec will be made in five days or less."

So far the Canadian Pacific has made no claims for the new liner beyond the statement that she will bring Canada one and a half days nearer to England and will be the most luxurious liner on the seven seas.

Every first class cabin is to be an outside room with natural light and air and the room without barge attached will be unusual. Other ways in which the \$15,000,000 new ship is costing will be spent includes two stages fully equipped for theatrical performances, Turkish baths, swimming pool, squash racket court (the first on an ocean liner), full size tennis court on sports deck, beauty parlours, violet

ray installations and a series of public rooms designed and decorated by prominent members of the Royal Academy.

Now building in Scotland, the Empress of Britain will enter service early in 1931. The sixteenth vessel of a building programme totalling 215,000 tons launched in a three year period, the Empress of Britain is designed to accommodate 1,100 passengers in First, Tourist Third and Third classes. A comparison of her tonnage of 40,000 with the 20,000 gross registered tonnage of the "Duchess" class which accommodates 1,600 passengers, indicates the lengths to which the company has gone to make spaciousness an outstanding feature of the accommodation.

In addition to her position as Speed Queen of the St. Lawrence route to and from Europe, the Empress of Britain will have the distinction of being the largest liner making round the world cruises, achieving this by the comfortable margin of 8,000 tons.

## Quebec Lt.-Governor Visits Festival

Hon. the Lieutenant-Governor of the Province of Quebec, Hon. H. G. Carroll, (right in above illustration) and George Stephen, vice-president in charge of traffic, Canadian Pacific Railway, are here shown photographed against a background of handicraft work in the section of the Quebec Festival at the Chateau Frontenac Quebec, devoted to that work. With them are shown Madame

Napoleon Lachance and Phileas Bedard, habitant handicraft worker and folk song artist and two of the most colorful participants in the festival, which was opened by His Honor, October 16 and closed October 18, and was one of the most successful of the long series of similar folk song and handicraft revivals covering the whole Dominion that have been sponsored by the Railway in the past few years.

## Main Street

Born to Mr. and Mrs. I. Rasmussen, Jarow, on Friday 24th, a son.

The Rebecca Lodge are holding a Whist Drive in the Lodge Hall 31 Tuesday, November 25th.

Master Herbert Schon was operated on at the Wainwright hospital Tuesday, for tonsils and adenoids, returning later in the day with his father, and is reported to be doing nicely, and is reported to be doing nicely.

A couple of carloads of ladies of the Rebecca degree I.O.O.F. travelled to Irma from Wainwright on Tuesday October 28th, to attend the District meeting of that body which was presided over by D. D. P. Sis. M. Frickleton of Irma.

Mr. Bryce Innes, who resides on Section 9-16-9 suffered a sad loss last Wednesday at 11 p.m. when his house, garage, and contents, also his car, were totally destroyed by fire. Mr. Innes had a very narrow escape with his life.

The Times finds that local news is scarce these days, extremely so. One correspondent says that "local" items are as scarce as hen's teeth. So help us out by sending or phoning in your weekly contributions to the columns of The Times and make yours a newsy paper.

The Ladies Aid play entitled "The Arrival of Kitty," is well under way and expects to be ready near the last of November. Watch for further announcement.

The Bazaar for Saturday afternoon and evening is fully planned for and the Ladies Aid members are hoping for a good turnout of friends to help make it a success.

Little Ilene Lattnar had the misfortune of breaking her arm on Sunday but Dr. Greenberg was called and put it right again.

NEWS AND VIEWS  
KINSELLA DISTRICT

Thieves entered the farm house of Mr. and Mrs. Hallcroft one day last week, and got away with a quantity of apples. It is understood that no steps to apprehend the thieves have been taken as yet.

Everett Olsen left Saturday for Edmonton where he intends to secure work as baker for the winter months. He was accompanied by O. T. Skori.

A can of cream was stolen from the pump house at the home of Mr. and Mrs. T. Elwood early Saturday morning last. Constable Millar of Viking was notified and is making an effort to locate the guilty ones.

The good drying weather of the past week has again put the grain in fairly good condition for threshing.

The snow is practically all gone and most of the threshing machines are at work again today. A nice sunny day today accompanied by a high wind is drying the stacks up in good shape, and with a couple of weeks of good weather one of the best crops in the history of the district will be threshed.

## The Wastebasket

"Changing a tire, eh," said a fellow coming along the sidewalk yesterday in front of the garage where Wylie Brown was working on a car. "No, just jacking it up to give it a rest," replied Wylie.

A careful observer says that he finds that all of the married women in this town believe in law and order, that is, they believe in laying down the law and giving orders.

Heard in justice court: Judge: "You can take your choice, ten dollars or ten days." Prisoner: "If it's all the same to you, judge, I'll take the money."

"What makes you so sure that this medicine will cure rheumatism?" asked a customer in a drug store at Holden. "Because nobody ever comes back for a second bottle," replied the druggist.
